

CSR STATEMENT

Leonardo Royal Hotel Amsterdam

Good to be
here again.

Leonardo
Royal Hotel Amsterdam

We are aware of the influence of our business activities on the environment and society. We strive to act responsibly and preserve the environment for future generations. We do this by continuously integrating sustainability into our business processes, services and products.

To achieve this, we make conscious choices and seek a balance between people, planet and results. This is a process, not a destination. We are constantly looking for feasible steps to incorporate this social responsibility in our company. To achieve this, we implement the following measures:

Good to be
here again.

Leonardo
Royal Hotel Amsterdam

We stay on top of CSR developments within our industry and actively transfer this knowledge to our employees and those who wish to learn about our trade.

We inform our guests, employees and suppliers about our vision on corporate social responsibility and how we incorporate this in our activities.

We make transparent agreements with partners about the quality of our products and how we monitor this quality.

Besides determining the financial impact of our products and services, we evaluate their social and environmental impact and limit any negative impact thereof as much as possible.

We contribute to social initiatives voluntarily through donations, sponsoring and volunteering.

Whenever and wherever possible, we inform our guests and clients of ways to minimize their carbon footprint when using our products and services.

We continuously work to reduce the environmental impact and increasing the sustainable character of our company. Among others, we actively seek ways to reduce waste flows and our consumption of gas, water, electricity and fossil fuels.

We strive to continuously improve our purchasing processes and focus on products and services that are sustainable, preferably with a recognized environmental, sustainable or social quality mark.

Good to be
here again.
